## Elective Courses

FINC651/619, 652/616, 662 comprise the finance practice module. Students may substitute an elective for each of these courses for which they have extensive work experience or prior coursework in the area. Below is a list of some of the courses that can serve as electives. Students may choose courses from the following list but are not limited to courses on the list; the list is subject to change. Other courses may be used towards the degree requirements if submitted as part of the student's program of study and approved by the MS Finance Program Director prior to registration in the course. The MS Finance Program Director will decide on whether a particular variation from the stated degree requirements is allowed. The following courses are 3 credits each.
