RESEARCH PAPER

“Implications of the Paycheck Protection Program Fee Scheme on Lending Process: Evidence from the Bunching Approach” *Ph.D. Working Paper*

- The purpose of this study was to evaluate the efficiency and impacts of the Small Business Administration’s (SBA’s) regulation policies on the Paycheck Protection Program (PPP) loans lending process
- Implemented traditional one-dimensional bunching approach to estimate the policy impacts on the PPP loans lending process, looking for a better room for policies. Worked on the PPP loans data set over the year 2020 to 2021

“Labor Supply in Tanzania”

2017 Fall
